

INCLEMENT WEATHER

ace
academy
architecture construction engineering

In the event of inclement weather, ACE Academy will follow the lead of our sponsoring and partner school districts. Students should attend in accordance with their home high school's guidance, policies, and practices regarding inclement weather. Students will be excused from ACE, as per their home high school's actions. ACE will remain open for students unless all partner high schools are closed or are on late start.

Example:

Reynolds has a two hour late start, Sandy is closed, and Parkrose, Centennial and Gresham-Barlow are all on regular schedules. In this case, Sandy High School students are excused all day, Reynolds High School students are excused for the 2 hour late start and all other students are expected to attend ACE Academy as usual. Since our daily schedule varies, students will join us as their home school bus transportation schedule allows.

For information check the Flash News/PDXinfo.net web site for up to date school information for all partner districts and for ACE Academy.
